

## **Playground Supervision**

Estimated Completion Time: 18 minutes

### **Course Description**

*SafeSchools Playground Supervision* course gives an overview of the fundamentals of playground supervision. The course focuses on three key areas: Anticipation (awareness of features), Behavior (active monitoring and supervision), and Context (procedures and checklists). Designed as a primer for any new employee, the course is also helpful as a refresher for more experienced staff.

### **Common Themes**

- Reviews the high costs of playground injuries resulting from poor supervision
- Addresses playground supervision in 3 key areas: anticipation, behavior, and context
- Presents key supervision elements relating to awareness of playground features
- Identifies successful behaviors of an effective playground supervisor
- Covers playground procedures and policies such as injury reporting, etc.

### **Author/Reviewer**

The National Program for Playground Safety is a non-profit organization committed to improving the safety of playgrounds for children. Widely recognized as the leading experts on playground safety, NPPS routinely provides training, safety assessment, certification, and other consulting services for school districts and municipalities across North America.

### **Training Environments**

*SafeSchools* is ideal for a blended learning environment, complementing in-service or video training, or as a stand-alone training course. The *SafeSchools* approach engages the learner in an e-learning environment; while a Compliance Management System automatically tracks his/her progress through the courses. This assists the district administrator or training coordinator in demonstrating compliance.
