

Asbestos Awareness: Spanish Refresher

Estimated time to complete: 30 minutes

Course Description

SafeSchools Asbestos Awareness: Refresher is designed to help native-Spanish speaking custodial and maintenance staff meet their annual Asbestos Awareness training requirement. This refresher course is ideal for employees who have completed the mandatory two-hour training in a previous year and now need to complete their annual review of basic concepts.

Common Themes

- All school personnel should know the hazardous materials and conditions in their working environment.
- Asbestos exposure is always an emergency and time is always of the essence.
- Asbestos response actions are time-tested procedures.
- Treat others' health and safety as you wish them to treat yours.
- Exposure is permanent and cannot be "undone" once it occurs.

Training Environments

SafeSchools is ideal for a blended learning environment, complementing in-service or video training, or as a stand-alone training course. The *SafeSchools* approach engages the learner in an e-learning environment; while a Compliance Management System automatically tracks his/her progress through the courses. This assists the district administrator or training coordinator in demonstrating compliance.
