

Child Abuse Primer Spanish

Estimated time to complete: 20 minutes

Course Description

SafeSchools Child Abuse Primer Spanish is designed for native-Spanish speaking school employees. The course provides a concise review on the different types of child abuse and child maltreatment. Designed for all school employees to have a basic understanding of child abuse, the course covers training scenarios for physical abuse, neglect, sexual abuse, emotional abuse, etc. This course should also be supplemented with your district's child abuse policy, which can also be set up as a course in the SafeSchools system.

Common Themes

- Your responsibility as a professional will always dictate your response to the situation.
- A child's safety must always be the first consideration.
- School personnel should always believe children.
- Any child is a potential victim and any adult can be the potential perpetrator.
- Child abuse is never a child's fault, even if they have misbehaved.

Author

Eve Pearl is the Executive Director of the Council on Child Abuse of Southern Ohio, Inc. She also provides training and consulting services for numerous parent, professional, educational, and community groups on child abuse prevention and related issues.

Instructor Support Materials

SafeSchools courses come complete with instructor materials to augment current training practices. Included with the course are:

- Microsoft PowerPoint presentations
- Lesson plans
- Case studies
- Course assessment
- Sample memos
- Policy guides
- Support material

Training Environments

SafeSchools is ideal for a blended learning environment, complementing in-service or video training, or as a stand-alone training course. The *SafeSchools* approach engages the learner in an e-learning environment; while a Compliance Management System automatically tracks his/her progress through the courses. This assists the district administrator or training coordinator in demonstrating compliance.
