Cincinnati, Ohio (January 5, 2016) – Scenario Learning, developer of award-winning safety and compliance solutions for schools and workplaces, announces the renewal of its successful partnership with Liberty Mutual Insurance. The partnership provides special savings on the SafeSchools Online Staff Training System to Liberty Mutual's K12 clients. The SafeSchools Online Staff Training System streamlines safety and compliance training for all employees in a district. Subscribers receive access to a comprehensive library of 100% school-focused courses in a state of the art compliance management system that makes it easy for administrators to deliver and document training and policy acceptance for every employee. The system includes hundreds of expert-authored courses on important school safety topics including *Bloodborne Pathogens Exposure Prevention; Back Injury & Lifting; Bullying Prevention; Classroom Safety; Hazard Communications; Sexual Harassment; Slips, Trips & Falls* and more, or administrators can create their own custom courses in the system, and assign them to staff as well. Using SafeSchools Training, administrators can easily track staff training, monitor progress, download compliance reports and view or print certificates of completion.

More than 5,000 districts across the United States, including 30 of the nation's largest, use the web-based training system and complete nearly 7M courses each year. SafeSchools Training is a perennial District Administration Top 100 Product that helps administrators reduce liability, while increasing safety and compliance.
