

First Report of Injury

ONLINE ACCIDENT REPORTING & TRACKING SYSTEM

- Use **one system to report and manage injuries and accidents** for employees, students, and visitors.
- **Investigate and manage injury and accident reports** from anywhere on your campus, through any web-enabled device.
- Dashboards and reports deliver key **metrics for easy trend analysis**.
- **Save time by automating workflows:**
 - **Employees can self-populate** key information.
 - **Supervisors are notified and reminded** to review and submit reports.
 - Automatically create **district, state and federal** (OSHA 300 and others) reports.
